5. Grant permission to access profiles. Mandala requires permission to access profiles and posts from the Instagram account connected to your page, access insights for the Instagram account connected to your page, and show a list of the pages you manage. If you decline, Mandala system will not be able to connect to the platform.

Things that may prevent Mandala from connecting to your Instagram platform or prevent you from using Mandala include:

- 1. Your Instagram account is not a Business Account and is not connected to Facebook.
- 2. When you chose to 'allow', your Instagram Business Account didn't match the Facebook page you're connected to, or you allowed other pages that are not connected to your Instagram Business Account instead.
- When you do not grant permission to access insights on Instagram accounts connected to your Page, this will prevent you from searching for channels from the Instagram platform in Mandala's system.
